

Focused Care for
Bleeding Disorders

accredo[®]

How we help

Bleeding disorders like hemophilia can be scary. That's why at Accredo, a specialty pharmacy, our innovative therapy support program is rooted in our deep personal and professional commitment to you, your family and your community. When you choose Accredo, you'll receive individualized treatment as prescribed by your Hemophilia Treatment Center (HTC) or hematologist.

CLOSE CONNECTIONS

Your own regional care team is available to you 24/7 – with a real person answering your call.

MINIMAL INFUSIONS

We stress quick responses to a bleed because prompt treatment can minimize damage and greatly reduce the number of infusions you need.

COST SAVINGS

Accredo is one of the largest providers of bleeding disorder products and services in the country. We provide a wide range of products and closely match your prescribed dose, helping save you and your health plan money.

BLEED PREVENTION

We educate on safety, self-care and treatment to help prevent bleeds, and we can provide you treatment logs to help manage infusion recordings and bleed history.

FEWER ER VISITS

Unless it's an emergency, we want to keep you out of the ER.

- We'll be in touch regularly to make sure you have adequate medication and supplies
- We use tracked shipping for deliveries to your home, school or workplace (as permitted by law)
- In urgent cases, we have branch pharmacies across the country that can ship factor to you
- Our nurses can coordinate skilled nursing in your home when prescribed

We'd love to be your specialty pharmacy of choice. Our bleeding disorder clinicians are here to help 24 hours a day, 7 days a week.

Meet your team

Matt is a **customer service representative** and his job is to stay in close contact with you to ensure you have the medication and supplies you need.

Lisa is one of the **home care infusion nurses** who comes to your house, work or school to complete infusions and educate you on care and independence.

Crystal is one of the many **pharmacists** who are highly trained in the world of bleeding disorders. She reviews prescriptions for any drug interactions that could happen based on your other medications. She's also available for medication counseling and helps coordinate care with your doctor.

Diane is part of the team of **insurance representatives**. They obtain prior approvals for your factor order from your insurance company (or payer) before shipping and help explain your insurance paperwork.

Nurse managers like Jenica assist you with any condition-specific issues you may have and help get you set up with home health nursing if you need it.

And finally, Steve is one of our **field patient advocates** who connects you with programs and services from Accredo and your community to provide you with additional support.
