

## Why Choose Soleo Health for Bleeding Disorders?

Soleo Health's Bleeding Disorder Therapy Management Program is led by dedicated specialized care teams with extensive experience in Hemophilia A, B, Factor X Deficiency, Von Willebrand, and other Factor deficiencies. Our goal is to work with you and your physician to develop an individualized care plan and provide extensive education that encourages your independence and quality of life.

### THE SOLEO HEALTH DIFFERENCE

- Dedicated specialized care teams partner with providers and Hemophilia Treatment Centers (HTCs) to enhance positive patient outcomes
- 24/7 access to specifically trained pharmacists and registered nurses
- Comprehensive patient/caregiver education and support
- Patient Advocates to assist with managing insurance information and community relations to keep patients updated and engaged in their care
- Reimbursement support including education regarding manufacturer patient assistance programs, such as co-pay and insurance premium support
- Pro-active planning and service support when traveling
- Hablamos Español

### ENHANCING PATIENT EXPERIENCE

- Patient monitoring and continuous education by dedicated clinicians
- Therapy-specific patient assessments to help identify potential clinical interventions
- Tracking and assisting with safety measures
- Education specific to the work place and school

We know you have a choice in healthcare providers. Soleo Health is dedicated to enhancing our patients' experience.
