THE ART & SCIENCE OF UNDERMINING CANCER

By Francisco Contreras, MD & Daniel E. Kennedy, MC

Cancer treatment has improved in many ways, yet there is a crying need for complementary and alternative clinics, such as Oasis of Hope.

—Ralph W. Moss, PhD, Researcher & Founder, Moss Reports

This book is a must-read for physicians, cancer caregivers and families who would like to understand the complexities of cancer and available total-cancer-care resources for healing.

--Satya Prakash, PhD, Faculty of Medicine, McGill University

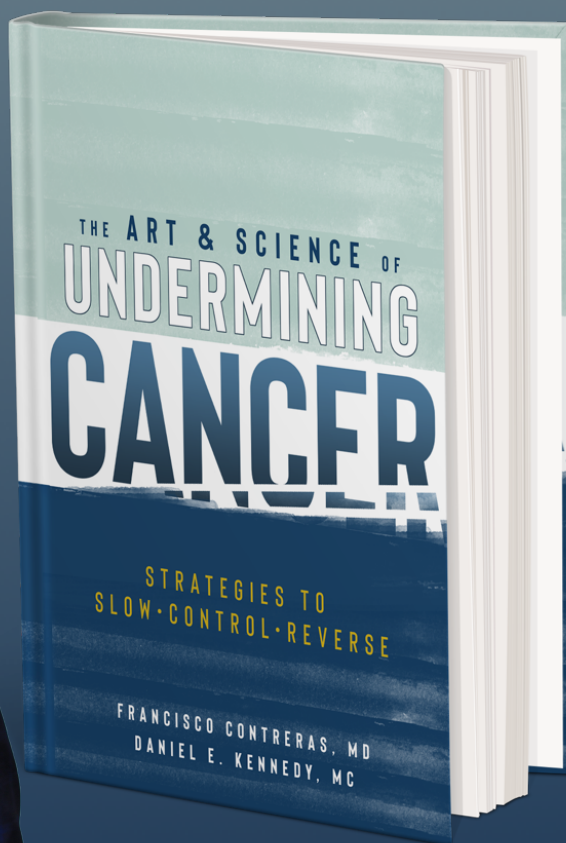

The Art & Science of Undermining Cancer will provide help and hope for your body, understanding for your mind, and added fortitude for your spirit.

--Frank Cousineau, President, Cancer Control Society
