

It's your business. Keep it that way.

Save \$000's and help you compete for DoD contracts

Do you need to comply to the way you store and receive sensitive files as a US Defense sub-contractor?

Is your business subject to the DoD and their Export Controls?

- Cocoon Data assists in sharing and securely storing CUI and FCI for Federal Government Contracts
- Cocoon Data helps to comply to ITAR and EAR
- Use our access controls to help your business comply to DoD requirements when handling sensitive data

You may be subject to the International Trade Arms Regulations (ITAR)...

...if so Cocoon Data can help you comply to ITAR and EAR without costing a fortune.

...only \$15 per user/month\*

- Order now
