MARS SUITE™

SIMPLIFY. PRIORITIZE. OPTIMIZE.
AN ENTERPRISE CYBER RISK MANAGEMENT TOOL

Achieve mission success and gain operational efficiencies by simplifying your cyber risk management decisions

SIMPLIFY

Make data driven decisions with simplified risk scoring in an intuitive dashboard

- Provides a comprehensive view of your organization's real-time cyber risk posture in a dynamic dashboard powered by enterprise wide continuous monitoring
- Uses letter grades to score your enterprise cybersecurity risk with insights into every level of your organization with configurable risk and criticality profiles
- Simplifies task prioritization, saving time and allowing you to focus resources on eliminating vulnerabilities and threats to your most critical assets

PRIORITIZE

Enhance situational understanding with enterprise-wide actionable intelligence

- Delivers a clear picture of your infrastructure and critical assets, correlated with identified vulnerabilities, known threats, and incidents to safeguard your mission
- Prioritizes your decisions and actions based on enterprise-wide situational understanding, strengthening your cyber risk posture
- Allows you to move effortlessly from strategic to tactical to operational decision making with intuitive drill down capabilities
- Facilitates efficiencies with data management configured to your unique requirements
- Leverages your legacy solutions for situational awareness and to establish your mission specific cyber risk posture

OPTIMIZE

Improve your cyber posture and operational efficiencies with optimized resource allocation

- Seamlessly integrates with legacy solutions, sensors, and disparate data sources
- Scales dynamically to fit your organizational needs and complexities
- Simplifies resource allocation tailored to the unique risk profiles for each organizational unit
- Incentivizes cybersecurity personnel's attention and actions by rewarding behavior that minimizes organizational risk
- Monitors actions and achievement of mitigation milestones optimizing resource utilization
- Frees up valuable time and resources by automating relevant, configurable status, milestone completion, and compliance reports
