With SVP, I feel supported and that my animal hospital will be enhanced with their continuing education, benefits, and ability to network with peers for best practices... They give me the autonomy to practice medicine and allow Murrayville Veterinary Clinic to retain its identity. SVP understands our individual needs and culture and is a Southern group that speaks our language.

Selling my practice was one of the hardest decisions I have ever made. My practice was thriving – growing at a rate of 15 percent per year. In spite of that, I was burdened with management issues that were pulling me away more each year from being the practicing veterinarian that I enjoyed so much. After entertaining offers from multiple entities, SVP was the obvious choice. Our hospital is so much more efficient now. Relationships make a difference. From the CEO to CFO to my regional DVMs and Regional/Hospital Managers, I proudly not only call them colleagues but friends that I can call for any need or just to chat. Proud to be a Texas SVP practice!
