

Newly Added to the Regency Family and Now
Regency
Lincoln

Honor | Remember | Celebrate

Helping families Honor, Remember and Celebrate their beloved pets.
In partnership with community veterinarians, Regency leverages state-of-the-art facilities, technology, and compassionate staff to honor and celebrate every pet's life.

How It Works

Tracking

With our newly launched *Angel Paw* tracking system, every pet is assigned a one-time use RFID tag which attaches to the cremation bag and tracks the pet in real-time through the entire cremation process.

Private Cremation

We perform private cremations. Only one pet is present in the cremation chamber during the cremation process. Ensuring 100% accuracy.

Returned Package

The package will also include a cremation certificate, the RFID tag assigned, a paw print if desired, a celebration video, and any additional memory options selected.

Show Special Packages

Standard packages to include our beautiful Biodegradable Urn or Cedar Urn, both packages are available with a clay paw print.

The Integrity Package

Includes Biodegradable Urn, Clay Paw Print, Certificate of Cremation and Blooming Bookmark.

The Remembrance with Paw Print

Includes Cedar Urn, Nameplate, Clay Paw Print, Certificate of Cremation and Blooming Bookmark.

Pawpals® Paw Print Kit

The Pawpals® paw print kit provides a lasting visual memory for every beloved pet. It is immediate, simple to use and an invaluable keepsake. The kit requires no mixing, kneading or drying and comes with a replacement impression pad. **Just lift the case frame, press the paw** into the unique mold material and **you've made a lasting memory!** Kits are available in two sizes, small and large.
