Disclosure Statement for Authors, Speakers, and CE Consultants

Financial Relationships and Off-label Use Disclosure

The purpose of this information is (1) to identify faculty's relevant financial relationships and (2) to identify educational content that includes experimental and non-FDA approved (off-label) uses of products. Relevant financial relationships that must be disclosed are (1) any financial relationship with companies that produce, market, or distribute products used on patients and (2) any of these relationships that occurred within the last 24 months and are to be discussed or presented in this conference.

Planning Committee Disclosures

The planners have no relevant financial relationships.
