

FACULTY DISCLOSURES

This purpose of this form is (1) to identify faculty's relationships and financial interests and (2) to identify educational content that includes off-label uses of products. Conflicts of interest that must be disclosed are (1) any financial relationship with companies that produce, market, or distribute products used on patients and (2) any of these relationships occurred within the last 12 months. The information that is disclosed on this form will be documented within the course platform so that an informed audience may formulate their own opinions as to any bias in the information presented.
